

## Tour Announcement

### The Electromagnetic Compatibility Test Facilities at General Motors Proving Ground, Milford, Michigan

**Thursday, August 21, 2008**

**2:45 pm departure from Cobo Hall, Atwater Street Entrance**

**6:30 pm return to Cobo Hall, Atwater Street Entrance**

Sponsored by General Motors EMC Lab, Jacobs Engineering &  
Underwriters Laboratories

Come see one of the largest OEM EMC test facilities in North America. Automotive EMC experts from General Motors, Jacobs Engineering and Underwriters Laboratories will be on hand to answer questions.

#### ***The guided walking tour includes viewing of:***

- Four each 10m semi-anechoic chambers for radiated immunity and radiated emissions testing, sized to test full vehicles, including passenger cars and busses
- RF generation system
- HF/VHF land-mobile RF immunity test facility
- Test control and performance monitoring amenities
- Spherical near-field vehicle antenna test system
- Presentation on component / module test methodologies

Follow this link to access the sign-up form.

**NOTE:** Space is limited and will be allocated on a first reserved basis until all seats are filled.  
Wear comfortable walking shoes as it's a long walk from the first chamber to the last chamber.  
Bus transportation is provided at no charge – no drive in guests allowed.  
Advance registration required no later than August 19, 2008 to attend. No on-site registration is available.
